

# MOOD

## Monitoring Outbreak events or Disease surveillance in a data science context

Project number: 874850

Horizon 2020

SC1-BHC-13-2019

Type of action: RIA

### D3.2 Integration chain (processing algorithms and protocols) for disease datasets

This deliverable is part of the MOOD WP1-Interactions with end-users for innovations.

The deliverable gives an overview of the initial meetings between MOOD and ECDC and  
in particular:

- A comprehensive timeline for the interactions with ECDC
- A detailed description of the areas of needs for ECDC
- A detailed description on how MOOD will address the needs of ECDC to create synergy and alignment with ECDC's tools and strategies
- A commitment to the inclusion of a specific section on ECDC interaction into periodic project reports

This is the first deliverable of WP1 and it will serve as a basis for the proper implementation of the socio-technical innovations of the MOOD project and in particular the tasks of WP1.
