

# MOOD

## Monitoring Outbreak events or Disease surveillance in a data science context

Project number: 874850

Horizon 2020

SC1-BHC-13-2019

Type of action: RIA

### Deliverable 6.3 Report on strategic policy

In this deliverable, we summarise our strategy towards ensuring sustainability once the MOOD project will have been completed. This strategy follows two main axes: 1. Integrate all MOOD outputs into a common online platform that will be accessible to a wide range of professional users. 2. Create an International Not-for-profit Association (INPA) based on an agreement between the developing consortium partners and with a realistic business plan. This is the first version of this deliverable that will further evolve based on the input of the different consortium partners
