

## MOOD

### Monitoring Outbreak events or Disease surveillance in a data science context

Project number: 874850

Horizon 2020

SC1-BHC-13-2019

Type of action: RIA

## Deliverable D7.2 Quality Assurance Plan

This deliverable describes the quality assurance plan that helps the identification of the errors or lapses in the processes of the data from the source identification to the input in models. This will allow the development of measures and strategies to reduce/eliminate the potential of data errors to affect the quality of the results and cause concerns on the utility of the models and tools developed. The deliverable is in link with the Deliverable D7.3 Risk management plan and D7.4 Data Management Plan (DMP). The first plan of these Deliverables will be available at M6 of project start followed by updates at M12 and M24.

**Actual submission date: 30 June 2020**

**Lead of the deliverable: Luca Busani, ISS, Italy**
