

MOOD

Monitoring Outbreak events or Disease surveillance in a data science context

Project number: 874850

Horizon 2020

SC1-BHC-13-2019

Type of action: RIA

Deliverable D7.8 Report on collaborative work plan and concrete actions between MOOD and VEO (v1.3)

This deliverable focuses on addressing the collaborative work plan and concrete actions between MOOD and VEO: “Report of the participants, mandate and timeline of the following joint meetings.” Joint annual meeting between the leadership of both consortia to update and align each other’s activities, and both parties are invited to each other’s annual consortium meeting. This gives four annual contact points for the project coordinators:

1. Mood annual meeting
2. VEO annual meeting
3. MOOD & VEO annual coordinator meeting in November 2020 after the set-up of the projects and the first work year
4. Online annual joint meeting of the project’s Ethic Advisory Boards in October 2020 after the set-up of the projects and the first work year

Additional ad-hoc meetings may be organized on a need-basis. Given the complex nature of both projects, this may include PI-meetings following project coordinator prior approval only. From January to June 2020, leadership of both consortia had several meetings, to set the collaborative work plan and concrete actions between MOOD and VEO. This report is a result of these meetings between the two consortia. This is the first deliverable of the collaboration between MOOD and VEO projects.
