

MOOD

Monitoring Outbreak events or Disease surveillance in a data science context

Project number: 874850

Horizon 2020

SC1-BHC-13-2019

Type of action: RIA

Deliverable - D8.2. POPD - Requirement No. 2 - Data processed are relevant and limited of purposes

This deliverable is part of the MOOD WP7: Project management and coordination. In this deliverable the Consortium answers to the Ethics Review's requirements related to the collection and processing of personal data:

1. We explain how all of the data that we intend to process are relevant, and how their use is limited to the purposes of the research project.
2. We provide a description of the technical and organizational measures that will be implemented to safeguard the rights and freedoms of the data subjects/research participants.

3. We provide a description of the security measures that will be implemented to prevent unauthorized access to personal data or the equipment used for processing.
4. We provide general descriptions for the anonymization/pseudo-anonymization techniques that will be implemented.
5. We describe how we plan to confirm that, in case personal data are transferred from a non-EU country to the EU (or another third country), such transfers comply with the laws of the country in which the data were collected.
6. We provide detailed information on the informed consent procedures with regard to data processing.
7. We confirm that each host institution has appointed a Data Protection Officer (DPO), and describe how the contact details of the DPO are made available to all data subjects involved in the research.
8. We describe how, in case of further processing for previously collected personal data, we plan to explicitly confirm that the beneficiary has lawful basis for the data processing and that the appropriate technical and organizational measures are in place to safeguard the rights of the data subjects.
